OLD STAR ROUTE MAY BE RE-ESTABLISHED.

After having been discontinued
several years, the old star mail
route between Hickman and
Bayouville, Mo., will probably
be re-established. People of that
section have been getting their
mail out of East Prairie, but
when the water is up they are
cut off completely, having re-
ceived no mail for several weeks
past on this account.

Bayouville is 12 miles below
Hickman on the Mississippi river,
and this is probably the only
star route in the Mississippi val-
ley where the mail is carried
the entire distance in a boat.

A New York price list of 1866
shows that at that time granu-
lated sugar was 20 cents a
pound, molasses \$1 a gallon, and
flour \$2.50 a sack, while a com-
mon laborer received \$1.25 a day.

MRS. CRAWFORD DIES IN WEST HICKMAN.

Mrs. Earl Crawford died at
her home in the west portion of
town Sunday, age 37, after a
short illness of stomach trouble.
She came here with her family
about 2 months ago from Obion,
Tenn., and her remains were
carried to her old home at
Bradford, Tenn., for burial. She
was survived by her husband and
four children, father, three bro-
thers, and one sister. She was a
consistent and loyal member of
the Baptist church. T.E. Mount,
a brother, was at her bedside
when death came.

We are just wondering who
will be first to put "horse steak"
on the market in Hickman. The
Health Department of New
York has recently consented to
the slaughter of horses for the
"high priced meat market." The
contention is that the horse is a
clean animal, and free from tu-
berculosis, and will make ideal
meat. The department expresses
the hope that the prejudice held
against horse flesh will soon be
eliminated.

Styleplus Clothes \$17

The price remains the same!

The Great War has sent prices for practically everything
soaring upward. But the price of Styleplus remains the same!
In the midst of this era of rising prices the makers have
achieved the almost impossible—men can still be well-dressed
for \$17!

You can continue to enjoy the splendid Style and Wear
of Styleplus at the same easy-to-pay price of \$17! The same
snap and style in the fabrics—all-wool or wool-and-silk.
The same hand tailoring! The same skill in fashioning the
models. The same sturdy understructure to the clothes, all
carefully water-shrunk. The same wide variety in fabrics
and styles. The same honest guarantee, giving you com-
plete confidence in your purchase.

At the outbreak of the war the makers foresaw present
conditions and contracted at the prices then prevailing for
huge deliveries of cloth this season, effecting vast savings.
The demand for Styleplus has doubled, they doubled their
output and thereby greatly reduced the manufacturing costs.

Visit this Styleplus store today and see for yourself what
a remarkable achievement this is! Buy one of the new
spring Styleplus suits and walk out well-dressed and dollars
to the good.

Let us not be deceived. It is up to each one—rich, poor, high or low—to conserve the food supply. Food waste this year will be nothing less than a crime, and should be so recognized and treated. A few months ago, when gold was flowing into our coffers, in yellow streams, we strutted and boasted of our boundless wealth. We compared ourselves to Midas—that everything we touched turned to gold. And now we are in grave danger of finding ourselves in his predicament—our gold useless because we cannot eat it. The International Institute of Agriculture sends this solemn warning from Rome: "The world's food crop is deficient and the situation is becoming alarming." The report of this institution is not idle talk. High prices and scarcity of many commodities, even in Hickman, bear them out in this statement. Economy in any line is praise-worthy, but economy in food products just now is a necessity.

B. A. Boone, of Clinton, game warden for this district, was here first of the week on business. Mr. Boone tells us that the attorney general gives as his opinion that any lake or pond, in which the stock of fish may be replenished by communicating with other bodies of water during high water or other natural means, is not a private body and therefore cannot be netted or seized with impunity, but is subject to the State's game regulations. This would apply to many of the streams and lakes in Fulton County, and Mr. Boone says he will see that all violations are vigorously prosecuted.

J. P. Witt, candidate for jailer from the other end of the county, took the offensive and invaded this district Tuesday, rounding up good Democratic voters for himself.

whipping during the noon hour. The knife, which he wielded with such deadly effect, was just a ordinary, small bladed Barlow pocket knife.

The Puckett family have resided here for a number of years their home being just west of the city limits.

ARNOLD HUNTER FIRST PRISONER IN CITY JAIL.

Arnold Hunter, colored, wanted by the city authorities on a old charge, was picked up Saturday by Policeman Joe Wall and landed in the new city jail which has just been finished. Hunter has the honor (?) of being the first prisoner to go into the city's bastile. We failed to learn if City Jailer Posey held any special inaugural exercises on this occasion—more than a formal opening and closing of the heavy steel doors.

In connection with the city's new jail, it might be stated from now on it will not cost the city a stipulated sum every time a prisoner is taken out for work on the streets and the citizens propose to indulge in quite a bit of this diversion—the prisoner. Those who are so unfortunate as to become city jail birds will be given a liberal amount of exercise with pick and shovel. The cost heretofore while city prisoners were kept in the county jail, was almost prohibitive as the work was not worth the fee paid for taking them out.

While the city's jail—a part of the fire department building—is small, it is strong and comparatively as safe as the county's \$10,000 jail, and will save the city money in various ways.

FRANK BARKETT
EAST HICKMAN

HICKMAN STILL WINNING.

The Hickman Baseball Club defeated the Tiptonville team Sunday by a score of 8 to 3. The game started out to be a hot one, the Tiptonville pitcher striking out the first seven men to face him, then "Little Baker" decided it should not be a strike-out and got a clean single one over first base, which was such a surprise that Walker walked and while Shaw was fanning the wind, Baker stole third. Then "Swiftie Markin" came up for a two base hit, scoring Baker and Walker, then stealing third and home while Wright was fanning.

"Strong Arm Cherry Red" heaved the apple for Hickman with such twists and turns that the visitors found it hard to foul, much less getting a homer. Leathers and McNish assisted the Hickman team, McNish placed another big star in his crown by his perfect play on first. It was a nice game from start to finish, not a single squabble, therefore, making life easy for umpire Hudleston.

Cincinnati Man Tells How To Shrivell Up Corns or Calluses So They Lift Off With Finger.

Ouch! ! ! ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callus stops soreness at once, and soon the corn or callus dries up and lifts right off without pain.

He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store, but will positively remove every hard or sore corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a small bottle for you.

SOME CHUNKS OF WISDOM.

Did you ever know that you could test an oven's right heat for cooking certain estables with a simple piece of white paper? If the paper turns a light yellow, scarcely perceptible, it is ready for cookies or sponge cake; if it turns a nearly decided yellow, it is ready for pie, pound cake and mince pie; if a deep yellow, it is ready for bread. If it blackens the paper, cool the oven right off.

Did you ever know that if you wanted anything cooled quickly that by placing its dish in a pan of heavily salted cold water, you would get results as quickly as if it were set on ice?

Did you ever hear from old-fashioned folks that all vegetables that grow above ground must be put to cook in boiling water and all that grow below ground, but new potatoes, must be put to cook in cold water?

Did you ever know that in eating you must not mix too much fruit and vegetables? Cabbage and apples are not intended to be eaten together, but by those who have the strongest of digestive organs, and these can soon be abused. Grapefruit, or an orange, and cereals and milk, eaten at the same meal will sometimes, after a while, and occasionally very soon, set you to wondering what has gone wrong with you.

TABLE LINEN REQUIRES CARE

Must Not Be Laundered in the Usual Ways, If Best Results Are to Be Obtained.

Good table linen, in the first place, means much. But care of the same linen means more.

Strong bleaches must never be used on fine table linen. Of course, table linen is often badly spotted and needs to be cleansed in some way. But boiling water removes coffee spots, cold water removes cocoa spots, and sunshine removes many stains. When stronger acids must be used, they should be applied and removed by intelligent hands. They should be allowed to remain on the spot just long enough to eradicate them, and then rinsed thoroughly out with clear water. For if they remain on too long they remove not only spots but pieces of linen.

Some old-fashioned housewives occasionally have their table linen dipped in buttermilk to whiten it. The linen is allowed to remain in the buttermilk for a day or two, if necessary, and is then thoroughly rinsed in cool, clear water, later in warmer water.

For fruit stains, pour boiling water through them while the stains are damp, if possible. If they dry on, rub them with lard and put through the usual washing process.

Always dry table linen out of doors in the sunshine. If possible, have a little bleaching green of green, protected from the侵害 of cats and dogs.

Mint Ice.

To make a refreshing mint ice, rinse a small handful of fresh mint leaves through several waters, then bruise thoroughly and steep for an hour in a cupful of lemon and orange juice mixed. In the meantime prepare a syrup of one pound of granulated sugar and one pint of water. Add the mint, strain and freeze.

Mix the juice of two oranges and four lemons with six tablespoonfuls of sugar syrup, using four tablespoonfuls of the mixture over each glassful of shaved ice. Place sprigs of mint on top of the ice and fill the glasses with mineral water.

Gentlemen:-

Although "THE CRISIS" is playing at prices up to \$1.00 in Cincinnati and other big cities, at present, we find that the most popular prices in smaller towns are:

MATINEE -- Adults.	25 cts.,
" Children	15 "
NIGHT Adults	35 "
" Children	25 "

In making this suggested cut in prices, we do not want you to think that we have lessened our confidence in "THE CRISIS", for we want to once more assure you that it is the most wonderful picture produced since "THE BIRTH OF A NATION", and your patrons will agree that this is not far-fetched.

Yours very truly,

BIG FEATURE RIGHTS CORPORATION.

NEITHER PROFIT NOR LOSS FINANCIALLY SPEAKING.

The Clyde Poulter lecture and recital, under the auspices of the Christian church, at the Court House Thursday evening, was largely attended. Unfortunately, the church failed to realize any profit, as the lectures was guaranteed \$35 and should have all over that amount up to \$50. The gross receipts were \$49; and Poulter, of course, took the said forty-nine—leaving for the good ladies, who worked so diligently for the success of the entertainment, "naught but grief for promised joy."

CAYCE ITEMS.

Mrs. Paul Davis and children, Billie and Vada, came Saturday from Jackson to visit Mrs. H. Burns.—Drew Lutten and family, of Union City, came Sunday to visit Miss Nannie Lutten.—Miss Kathleen White spent Sunday with Miss Verlie Provow.—Miss Ollie Richardson and Walter Lutten, Clara Carr and Ned Atteberry motored to Fulton to attend the tent meeting which is conducted by Bro. Price.—Mr. and Mrs. Burnett came down to the graduating exercises and spent the night with C. L. Bondurant.—Monday evening was the occasion of the graduation exercises of 43 of Fulton county's young people, held at Cayce High School building. The school children sang "The Star Spangled Banner," invocation by Rev. Holly, of the Methodist church. The address was delivered by Dr. Cherry of West Kentucky State Normal. It was an indictment against waste. The waste of social and economic life, waste of agriculture, waste of Sunday School and church, all traceable to the lack of efficient workmen and because of ignorance. For over an hour Dr. Cherry arraigned the citizenship of Kentucky for the waste that goes into the millions of dollars annually. The packed house of eager hearers pronounced it the most masterful discourse delivered in this part of the country for years. Hon. J. W. Roney, attorney of Fulton county, after flattering and appropriate remarks, delivered the diplomas. Mrs. Carr and Mrs. Fowler and Misses White and Meneese interspersed piano music throughout the program. Last but by no means least was the presence and presiding of our faithful and efficient Superintendent of instruction, Miss Virginia Lutten. The committee appreciates her labor and the new interest she has given education.

—Miss Era Freeman and Myra Bell Carr were delegates to the Memphis conference Woman's Missionary Society which convened at Paducah last week. These are young organizations here but made a decided hit at the conference and are striving to continue on the honor roll.—Mr. and Mrs. C. A. Bondurant and family visited their daughter, Mrs. Linnie Boulton, last week.—Mr. and Mrs. R. C. Alexander spent Sunday with his sister, Mrs. Pearl Elliott, of Crutchfield.—Mrs. Joe Allen returned home Monday from a short visit to her mother who lives at Terrel, Tenn.—We note that our efficient County Superintendent Miss Virginia Lutten, has announced for re-election to that office. This is indeed glad news to every man, woman and child in Cayce. Miss Virginia's old home town, and we predict that Fulton county, will honor itself by placing Miss Lutten at the head of the school system for another four years. It is understood that she will have no opponent, nevertheless if from nothing more than appreciation of faithful and efficient service rendered in past administration, every voter in Cayce school district, if not the entire county, will cast their ballot in August and again in November for her. We are indeed glad she is willing to serve for another term.

SHRIMP HAS ROUGH TIME WHEN LINES BREAK.

Shortly after the steamer *Black Hawk* landed at her wharf in Hickman Monday afternoon, a strong gale sprung up and the big ropes holding the boat to shore were snapped. She swung around and her stern and wheel were thrown on the bank by the huge waves, while her bow wallowed in the breakers which ran over her deck, and it was with danger and difficulty that the pilot brought her under control. In the meantime, passengers hurried off the boat by the only means of escape—that of disembarking at the rear of the boat, via the stern wheel, and jumped to the shore. Fortunately, no one was hurt nor was any damage done, but it looked "squally" for a time. Several hundred people stood on the bank, momentarily expecting to see the steamer break as she floundered in the waves six or eight feet high. She tugged so hard at her lines that the railroad to which she was tied, was pulled about eight inches out of line. The high wind and rough water continued until nightfall, after which she resumed her trip to New Madrid.

News Snapshots Of the Week

Attention was focused on the conferences of British and French commissioners with Americans at Washington. The ovalions received by Balfour, Viviani and Joffre were welcome news to their compatriots at home. The "Wake Up America!" movement took on new significance during the week which was marked with patriotic parades and war preparations everywhere. At West Point a class of cadets was graduated ahead of time, Harris Jones of New York being the honor man. The launching of the *New Mexico* at the Brooklyn navy yard will soon add to the Atlantic fleet one of the biggest dreadnaughts in the world. There are indications of unusual activity in the cultivation of the soil. In the east even the golf courses are being worked. Police along the Atlantic coast are fitted out with anti-aircraft guns mounted on motorcars. The new Russia will send Baron Rosen, former ambassador, to again represent his country here.

CAT ADOPTS YOUNG RABBITS FIRST BAPTIST CHURCH.

H. Lamastus tells us that he has a cat at his home with three young kittens. That's about as usual. But, this particular cat is of the Roosevelt persuasion—leaning to large families, and has increased her family 100 percent by bringing in three young rabbits, which she has adopted and mothered along with the kittens.

In serving meals, old Tabby shows no partiality in favor of her blood offspring, but nurtures the rabbits as fondly as the kittens.

If you want something good to eat that is right up-to-now, see Bettsworth.

BUYS NEW TRACTOR.

Albert Roper, of south of town, carried a new farm tractor to his place yesterday. It is of the Dover make, 15-30 horse-power, and pulls three large, under-slung plows. This machine is of the three wheel type and turns in a very small place, exploding the idea of impracticability on this account. There are now about a half dozen tractors in Fulton county and they've come, like the auto, to stay.

JOE GAMMONS DEAD.

Joe Gammons, residing west of Hickman, died Monday morning, of heart trouble, following an illness of la grippe. Deceased was 61 years and 11 months of age.

Catarrhal Deafness Cannot Be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed there is the result. Under the inflammation can be reduced and this tube restored to its normal condition, hearing will be restored forever. Cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circular free. All Druggists, 75c.

HOME-GROWN BERRIES ON HICKMAN MARKET.

J. H. Langford, one of the biggest strawberry growers of Fulton County and residing a few miles southwest of town, brought in the first home-grown strawberries of the season Tuesday. Mr. Langford tells us that the yield this year will be exceedingly small, as the dry weather of last fall killed many plants.

NOTED EDUCATOR SPEAKS TO HICKMAN AUDIENCE.

Dr. H. H. Cherry, President of the West Kentucky State Normal, at Bowling Green, honored Hickman with a visit Tuesday and addressed a large audience at the Court House on the same evening. Special music was also included as a part of the program. Dr. Cherry is one of the foremost educators of the country and a splendid speaker. His address here was most interesting, dealing with the economical and social problems of our commonwealth and a plea for higher education as one of the essential elements necessary to improvement along these lines. A gentle rumor is current that the friends of Dr. Cherry will make a united effort to get him to run for governor in the next campaign.

IMPROVES THEIR LANDING.

Will Routen, agent for the St. Black Hawk, has built an elevated board walk 58 feet long, leading from the boat's warehouse, at the rear of the Greek restaurant, to the river's edge. This will give the steamer a permanent low-water landing up-town, and will also be a convenience to other craft landing in. The runway cost about \$100 to install.

COMPOSITION ON PANTS.

The small boy who wrote the following composition on "pants" may some day edit a country paper:

Pants are made for men and not for women. Women are made for men and not for pants. When a man pants for a woman, and a woman pants for a man, they are a pair of pants. Such pants don't last. Pants are like molasses—they are thinner in hot weather and thicker in cold. Men are often mistaken in pants; such mistakes are breeches of promise. There has been much discussion whether pants is singular or plural. Seems to us when men wear pants it is plural and when they don't wear any pants it is singular. Men go on a tear in their pants, and it is all right; when the pants go on a tear it is all wrong. If you want to make pants last, make the coat first.

PROLIFIC SEED CORN.

T. J. Montgomery, of Providence, Ky., spent the week-end as the guest of his brother, W. F. Montgomery.

The former operates a big coal mining business. In regard to the present high prices for coal, he says as a result of strikes, operators have been forced to raise the miner's wages 20 per cent, blasting powder has soared to unheard of prices and cars for shipping have been hard to get. Altogether prices have been forced up. He also predicts that coal will sell this fall at \$9 to \$10 a ton and refuses to make any contracts for future delivery; believing \$15 coal is a possibility when the winter season sets in.

GROWING TOLL OF SUBMARINES IS ALARMING.

The enormous inroads on the world's shipping made by German submarines within the last few weeks has brought to American government officials a full realization of the disaster that faces the United States and the allies if not checked.

The British official announcement of the number of vessels sunk in the week ending on Sunday last shows that 38 merchant vessels of over 1,600 tons each were sunk. Those of less than 1,600 tons numbered 13 and 8 fishing vessels were sent to the bottom by submarines or mines.

Last week's statement showed that forty vessels of over 1,600 tons each were sent down.

Included in this list are two American vessels—the Rockingham and Vacuum, with the loss of thirteen lives.

Boats are going down must faster than they are being built, and the situation is already critical.

IMPORTANCE OF THE WOMEN

Some of the Big Things That Depend on The So-Called Weaker Sex.

If it wasn't for the women the trolleys would stop running, the restaurants and theaters would have to close, the churches would languish and starve, and of course, as to the dry-goods and department stores, there would be none. We tremble to think if some day the women would concentrate all their power for some certain purpose, how very bad the situation would be! But of course they won't. They are too considerate and loving for that, but the statement is justified to show how important the women are in the activities of a community. Suppose they all stayed at home, and cooked, and sewed, and made up the beds, and sprinkled the lawn and took care of the children, and indulged only in that beautiful home life of which they are so capable, what would become of the business and its varied needs? We hesitate for a reply.—Ohio State Journal.

THE INTER-COUNTY-SEAT SYSTEM OF ROADS.

R. Wiley, Commissioner of Public Roads, who ran down to Fulton County last month, met with and incidentally stated before the Fiscal Court that we had the best dirt roads in Kentucky, writes us as follows concerning the inter-county-seat highway system:

Roads are built to serve the people. No doubt the Fiscal Court of any county would be glad to surface with some sort of material all the roads of the county in one year, but such is impossible with the limited funds at their disposal. It, therefore, resolves itself into building first the main roads because they accommodate the greatest number of people and the people demand that the main roads shall be kept in good condition.

"When aid for the building of public roads is given by a State, they usually designate a system of roads upon which to expend the money, the idea being to lay out a system which accommodates the greatest number of people and can be built in a stated number of years with the funds available. Kentucky adopted the inter-county-seat system which comprises about eight thousand miles. Other States have the same system or else what is termed a "system of Roads." The inter-county-seat system usually comprises about twice the mileage of the usual system of roads as outlined in most States and consequently serves more people yet requires longer to build.

"Statistics show that the inter-county-seat system will accommodate about ninety per cent of the traffic of the county, the people living on secondary roads will in most cases travel over one of the inter-county-seat roads in the transaction of their business affairs. They would at least use the road a part of its distance because practically all secondary roads lead into one of the inter-county-seat roads and the people living in such sections appreciate and want the main roads built first.

"It lies with the Fiscal Court of the county to select the road

or roads to be built each year and the public should appreciate the fact that all the main roads can not be built at one time because of the lack of funds and that the roads should be built in order of their importance, and when the inter-county-seat roads are built the State will extend aid to the building of other roads in a county.

Only a part of the regular road fund is used to take advantage of state aid, the Fiscal Court using the remainder to work other roads in the county, in whatever manner they deem proper.

The highways are a system of transportation the same as the rivers and railroads. A river is locked and dammed, made suitable for traffic before its tributaries, a railroad always builds their main lines first and then the branch lines, and the same should apply to the building of roads—first construct the main lines and then the tributaries."

DIGEST OF BILLS PASSED AT SPECIAL SESSION.

Each of the eighteen bills passed during the extraordinary session of the General Assembly originated in the House. They are as follows:

No. 1—Oliver—Creating a permanent State Tax Commission, composed of the Auditor and two members of the dominant political parties, by the Governor, subject to confirmation by the Senate. The commissioners are vested with great supervisory and inquisitorial powers and will assume the duties heretofore performed by the State Board of Equalization, the Board of Valuation and Assessment and the Railroad Commission. The appointive members are to receive salaries of \$3000 annually and the auditor is to receive \$600 a year in addition to his present salary. The maximum expense of the commission is limited to \$15,000. The bill has been signed by the Governor.

No. 2.—Reducing the State tax rate from 55 to 40 cents and exempting from local taxation intangible property, such as stocks, bonds, mortgages, notes, etc., and

farm implements, manufacturing machinery and raw materials. The bill separates and classifies property for purposes of taxation, being a revolutionary change from the general property tax which Kentucky has had since 1891.

No. 3.—Providing that bank deposits pay a State tax rate of 10 cents on each \$100 in lieu of all other taxes. The banks must pay the tax, but may deduct the amount from the accounts of the individual depositors.

No. 7.—Placing a special tax of 2 cents a gallon on all distilled spirits. Liquors already in bonded warehouses are subject to the 2-cent tax. The law is expected to yield more than \$650,000 annually and is divided, 50 per cent to the general expenditure fund, 30 per cent to the school fund and 20 per cent to the road fund.

No. 9.—Placing a tax of 10 cents a gallon on malt liquor and subjecting imported malt liquors to the tax law becomes effective August 1st.

No. 10.—Permitting counties by a majority vote at special election to levy a special road tax of 20 cents for not more than 100 years. Bill was signed by Gov. Stanley.

No. 15.—Limiting the State tax on livestock to 10 cents on the \$100 of assessed value.

No. 28.—Providing for a tax of \$1 on the \$1,000 of the capital stock of building and loan associations in lieu of all other State taxes and exempting them from local taxation.

No. 35.—Increasing the powers of the City Assessor and City Board of Tax Supervisors in cities of the first class. Bill affects Louisville alone.

No. 36.—Twin bill to No. 35, supplementing its provisions.

No. 37.—Fixing the manner of assessing franchises of companies, operating both within and without the corporate limits of cities of the first class.

No. 38.—Providing for an optional referendum vote on laws that classify property for taxation purposes and places a lower rate on certain classes of prop-

erty than upon real estate. Five per cent of the State's voters may secure a referendum by filing a petition with the secretary of state within four months after the law is passed.

No. 41.—Providing that a person holding land by adverse possession, who pays taxes thereon for five years, if the other claimant fails to do so, shall become the legal owners of the land.

No. 43.—Providing a license tax of \$250 a year on hat, coat, and checkroom concessions in hotels and restaurants.

No. 44.—Placing a daily license tax of \$500 on the Louisville and Latonia race tracks and \$200 on the Lexington track. Bill to become effective as soon as signed by the Governor.

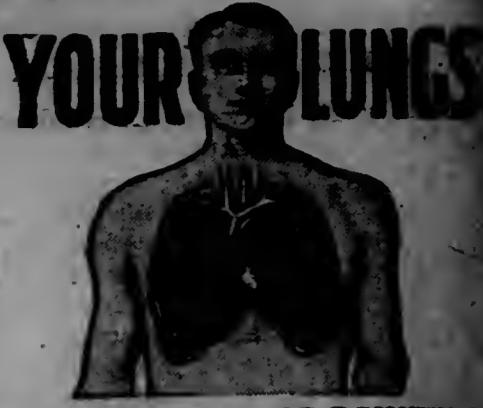

No. 46.—Making taxes become delinquent Jan. 1 instead of Dec. 1, and making sheriff or collector liable to prosecution for failure to account for collections.

No. 49.—Placing a State franchise tax of 1 per cent on the market value of oil produced in Kentucky and allowing counties to levy a similar tax of one-half per cent for county, school and road purposes.

No. 55.—Increasing the State tax on corporations from 30 to 50 cents. The tax does not apply to public service corporations that pay a franchise tax.

Keeping Yourself Well

THE FIRST STEP

Usually the first indication of a lowering of health is found in the bowels and liver. Something goes wrong—we eat too much, or work too hard—and the bowel action weakens or the liver is sluggish. That heavy feeling on arising in the morning, dryness of the throat, with bad taste, a slight headache, dull eyes—all show that food has fermented in the intestines, and that the body is manufacturing poisons instead of good blood.

Clear it all out. Give the stomach and bowels a fresh start. Encourage the liver to go to work. Manalin does all of this, without griping or weakening. It's the ideal laxative and liver tonic, because it follows Nature's plan, without discomfort, inflammation or forming habit. Constipation may be overcome with its use.

Liquid or tablet form. The tablets taste like candy. Children like them and they are safe. 10 and 25 cents.

NEGLECT OF WATER MAINS COSTING \$1,000 A YEAR.

A couple of years ago, when we were agitating better fire protection for Hickman, fire insurance men—also agitators—met with our business men and assured us with a good fire engine, hose and other prescribed equipment, we might expect a saving of approximately 10 per cent on our fire insurance. Every requirement of the insurance companies has been met, except the local light and power company has not made the required improvement on some of the mains. Our recollection is that Mr. Moorehead, then Vice President of the company, promised to do their part, but for some reason the matter has been overlooked, in consequence of which the people of Hickman are paying at least an extra \$1,000 a year on their insurance. At the same time we get no credit for having a fire engine and company. All we have done still avails nothing in the way of a saving until the mains are put in the required condition. It seems that it would be in line with the duty of the city council to give this matter prompt and vigorous attention. Even if there was no promise of an insurance reduction, it would be to the public interest to do away with the "dead end" mains in order that the maximum service might be rendered by the department when needed.

MRS. MAGGIE SCOTT ANSWERS FINAL SUMMONS.

Mrs. Maggie, wife of Isom Scott, died at her home in the vicinity of Brownsville, Thursday night, after a short illness of anoxia. Her infant, only a few hours old, died the previous week. Besides her husband, Mrs. Scott is survived by three small children.

This good lady was only 24 years of age—just at the high meridian of life—and her untimely death was a great blow to loved ones and friends.

The body was laid to rest at the Beech Grove cemetery Friday.

On another page of this paper will be found an advertisement of "Free pumpkin seed," given away by the J. T. Polk Co., of Mound City, Illa. Every farmer should get some of these seed and plant them with his corn, by doing this he could raise enough pumpkins to over-pay the rent on his ground.

Official announcement has been made at Metropolis, Illa., that the Pennsylvania, New York Central, Baltimore & Ohio and the Louisville & Nashville railroads will enter that city over a line to be built from Carmi, Illa., to Metropolis, a distance of 96 miles. The work will begin this summer.

A very unusual sight was seen on the streets of Mayfield Thursday morning. A man drove his team up in front of the Court House, hitched to a wagon with six barrels of corn in the back. For this corn he asked \$6.00 per barrel, making in cash for this load of corn \$36.—Mayfield Messenger.

Courier's Home Circle

Contentment.

Experience is beyond doubt the greatest of teachers; even though she is sometimes tardy in her lessons. A good, old friend of the Courier's—his name makes no difference—who paid us a social visit Friday, in the course of conversation, says that after 68 years' of experience he is just learning the value of simplicity. We believe he is one of the few contented men in Hickman today, but a sage—a philosopher. At his age, he says, only three material things are actually needed by a man—habitation, food and raiment, while employment is certainly essential to peace of mind and longevity.

From a leader of men and a man once prominent in public affairs, our friend has settled down to a life of peaceful contentment—envying no one his possessions or reputation. He, too, is a veteran of worldly battles. The lines of care are stamped indelibly on his face. Like so many of us, in the May day of young, robust manhood, the beauty and fragrance of the early morn were lost—while he pursued the phantom shadows of delusion, like probably YOU and I are doing now—never pausing to remember "that paths of glory lead but to the grave." Today he prizes peace of mind and his humble position with the Mengel Box Co. as worth more than the presidency of a railroad and its nightmares of worry and vexation.

Pride and ignorance, he says, are the two great curses today: the first vandals of our social system which rob us of happiness—and happiness, after all, is the one chief end of all human existence. In the ten years we've known this gentleman, it is apparent to us that his life grows brighter with each passing day. He is always smiling—uniformly pleasant and kind to all with whom he comes in contact. To him, every day the chalice of life is brim full of happiness and contentment. While he is a man of modest means, no millionaire, surrounded with pomp and splendor—wealth and ambition—is half so happy. "As long," he says, "as I find others—their mental attainments and opportunities considered—who are worse off than me, I shall never complain. I have learned to look at those below rather than above me, for standard of comparison. It must be admitted that unhappiness and discontent follow the desire for more worldly goods than one actually needs. Because others have more than I is no cause for worry, if I have what I need."

When all of us learn this simple lesson we shall be happier and the world brighter. Mr. _____, passed the half century mark before he paused and considered seriously that old scriptural lesson, of vanity and vexation of spirit. Young generations would do well to profit by his 68 years experience—which has taught him that wealth alone never bought a moment's real happiness—while contentment, as cheap as the air we breath, leads directly to it. Your wealth will buy a lot of things, all kinds of luxuries it brings, but you can't take it to the mart, and buy a glad, contented heart.

We are certainly blessed with an unusual number of bright little boys in this community. Little tots just starting on life's journey. They stand upon the threshold of life with foot uplifted and hand outstretched ready to begin the journey, and happy in anticipation of the beautiful and wonderful things they expect to see. To them all is bright and promising, no thought of evil crosses their minds; their imaginations

tion clothes everything with rainbow hues; they little think that every rose has its thorn, every pleasure its corresponding grief. They are eager to be off. The path is narrow; on either side are yawning precipices which threaten to engulf them at every step; numerous and enticing byways seek to lure them from the narrow way that leads to safety and honor. Here it is that the council of Christian mothers take root in their hearts and their saint-like faces will go before them on their journey, guiding stars whose gleam cannot be extinguished, no matter how hard the storms of temptation may beat upon them.

DESERTED BABY FOUND.

A Mrs. (?) Smith, who said she was from about Cottage Grove, Tenn., and who had been in the hospital here, bought a ticket from Paris but left the train at some point between here and Paris, leaving her few days old baby in the toilet where it was found by the conductor who turned it over to the authorities at Paris. — Calloway Times.

HICKMAN CHAUTAUQUA
DATE JULY 6-7-8-9-10.

Hickmanites will have no kick coming this year because the Redpath chautauqua dates come too early. Last year, the chautauqua hit us during the "blackberry winter" season, but there was no delaying it; we simply donned our overcoats and ear-muffs and took 'er in. When the contract was presented for signatures for the present year, we had our inning and refused to be a party to a winter chautauqua. Realizing that we are sticklers for warm weather dates, Harry Harrison, general manager, informs the Courier that our date this year will be July 6 to 10 inclusive (or 11th, if no Sunday program is given), which begins on Friday.

In due season, the program will appear in these columns.

Mr. Thomas, manager of the 5-day circuit, informs us that a most excellent program has been arranged for this year.

Courier advertising is evidently far-reaching. We gave out several hundred packages of free garden seed Saturday—many of whom do not subscribe for the Courier but evidently read their neighbor's papers.

BROKEN DOWN IN HEALTH

Woman Tells How \$5 Worth of Pinkham's Compound Made Her Well.

Lima, Ohio.—"I was all broken down in health from a dispensary. One of my lady friends came to see me and she advised me to commence taking Lydia E. Pinkham's Vegetable Compound and to use Lydia E. Pinkham's Sanative Wash. I began taking your remedies and took \$5.00 worth and in two months was a well woman after three doctors said I never would stand up straight again. I was a mid-wife for seven years and I recommended the Vegetable Compound to every woman to take before birth and afterwards, and they all got along so nicely that it surely is a godsend to suffering women. If women wish to write to me I will be delighted to answer them." —Mrs. JESSIE MOYER, 342 E. North St., Lima, Ohio.

J. P. WITT WANTS TO BE COUNT JAILER.

J. P. Witt was here this week in the interest of his candidacy for Jailer of Fulton county, and authorizes the Courier to place before its readers his name as a candidate for this office, subject to the action of the Democratic voters at the primary Aug. 10, 1917.

Mr. Witt was born in this country, and for 40 years has led an honorable and upright life as a resident of Fulton. This is his first appearance before the voters of the county as a candidate for public office, and his friends bespeak for him a careful consideration next August. He says that he is going to make a slow canvass of all voters in the county, and that the man that backs him will be "some runner."

AUTO TAX VALID.

The Kentucky automobile tax and regulations were held valid by the Court of Appeals in the case of Murray Smith, of Danville, who permitted himself to be arrested for running his machine without a license for the purpose of testing the law.

He contended the ad valorem tax and license tax constitute double taxation, and the auto license law, purporting to be an exercise of police powers, taxes the machines more than the cost of issuing tags and regulating the machine.

Washing Knives.

Table knives are not always well treated at the hands of the dishwashers. One special point about washing them is to keep the handles out of the water or they will become loosened from the blades. Wipe the soiled knives clean on a damp cloth, after wiping them on paper, then stand them with the blades downward in a jug of hot water in which a little baking soda has been dissolved.

Balled Dressing.

This is a good boiled salad dressing: Beat the yolks of two eggs until creamy. Mix with a teaspoonful of mustard, the same of salt; three tablespoonsfuls of sugar, two tablespoonsfuls of cream and one of butter. Over this pour two-thirds of a cupful of hot vinegar and cook over hot water, stirring until thick and smooth. Cool and use with vegetable salads.

Way to Save Gas.

When you have a couple of hours ironing to do, or if you have meat or vegetables to cook which require two or more hours time, put a teakettle full of water on the unlighted burner next to the one you are using. Then when your ironing or cooking is done, you will have a teakettle full of almost boiling water without burning any gas for that purpose.

Cream Cake.

Break two eggs in a cup, fill with cream, one cupful of sugar, beat until sugar is dissolved. One and one-half cupfuls of pastry flour sifted, with two teaspoonsfuls baking powder, little salt and flavoring to suit taste. Bake 20 minutes in a hot oven.

Melon Frappe.

Add one-fourth cupful of lemon juice and one cupful of sugar to one quart of cantaloupe pulp. Press through a fine sieve and freeze soft.

MAY START SOON.

The United States stands ready to send an army to Europe whenever the allies deem it wise to divert the necessary shipping from transporting food to transporting men.

It became known definitely yesterday that the government has offered the allies troops, but has suggested that the alarming shortage of world shipping may make it impracticable to send them at once. In spite of objections of the general staff to putting any American force on the firing line before the great war army has been raised and trained, the administration has determined that the small contingent earnestly desired by France for moral effect shall be sent as soon as possible. The general belief is that the way soon will be found.

MUST LIVE WITHIN MEANS.

Counties must live within their incomes in future. The Court of Appeals, in an opinion written by Judge Carroll in the case of the Nelson Fiscal Court against Less McCrooklin, wiped the record clean in the interpretation of Section 157 of the constitution, and held flatly that the section means just what it says, the indebtedness of a county in a year shall not exceed its income, and overruled previous opinions, under which counties had been disregarding in their computations fixed charges, like salaries and the maintenance of public buildings.

SHIP LOSSES GIGANTIC.

Admiral Lord Beresford, speaking in London Monday and complaining of the incompleteness of the official returns of the submarine sinkings, said the losses were appalling. He declared that he was so keen on the matter that he was inclined to risk the penalties of the defense of the realm act and tell the people himself, because until they were informed they would not realize the importance of economy.

It is highly probable that the submarine menace is worse than reported, and it may yet prove a worse obstacle than either the German army or navy. With every available ship now carrying food to Europe, it is still evident the food supply is gradually running shorter—as well as the number of ships—and a crisis is not far off. If Germany should succeed in starving our allies to submission, through the agency of the submarine, our part in the conflict would immediately become a matter of seriousness. We should make a desperate effort to feed Europe.

NATION'S GREATEST MEN END WAR PROHIBITION.

When the Democratic caucus by a vote of 87 to 60 declared for national prohibition during the war, the world was dazed and amazed. There is no occasion for it. It is the logic of events. The nation is confronted with an alarming food shortage, and we must feed not only ourselves but our allies. Prohibition will divert enough foodstuff from the waste of the liquor traffic into its legitimate use to give every one of the twelve million men in the armies of our European allies a pound loaf of bread every day.

The best actuarial authority was brought to Washington and asked what effect moderate drinking had upon life, and told in the cold calculation of science that 180 men die among moderate drinkers for every 100 that die among abstainers. We need them. This presented a practical proposition. No sentiment. No moralizing. This is language that the brusque business brain grasps. We need more men for farms, factories and the ranks. Congressmen were told that there are some hundreds of thousands of men engaged in the manufacture and sale of liquor which, with the traffic prohibited for the war, would help meet the labor crisis. In addition to this it is said that the use of liquor decreases the efficiency of labor from 15 to 30 per cent.

Then the doctors came with the testimony that the liquor traffic is largely responsible for new forms of contagion that are most prevalent and most disabling among soldiers. The demand for war prohibition comes from newly aroused business interests that are seeking, in a practical way, to help adjust the nation to the strain and stress of the war.

"SAVE THE BOYS."

The "liquor manual" has a short article headed, "Save The Boys," and then gives a most heart-rending account of how the boys of Colorado are being made drunk in this "dry" State. The statement is made, "The young boys are using liquor more freely" than they did under license. But will the informant remove the handkerchief from his "weeping eyes" long enough to listen to us as we ask, "Are the drys furnishing this liquor, or does it come from the law-breaking wets?"

RECORD OF THE PAST.

No Stronger Evidence Can Be Had in Hickman.

Look well to their record. What they have done many times in years gone by is the best guarantee of future results. Anyone with a bad back; any reader suffering from urinary troubles, from kidney ills, should find comforting words in the following statement.

John H. Nelson, painter and farmer, Extension State St., Hickman, says: I had severe kidney trouble and my bladder was weak. I suffered from constant pains, too. I used Doan's Kidney Pills and in a short time I was cured of the attack. I highly recommend Doan's Kidney Pills to anyone suffering from kidney trouble." (Statement given.

Use Doan's Occasionally.

On October 17, 1916, Mr. Nelson said: "I still have a good opinion of Doan's Kidney Pills and use them occasionally when I feel in need of them. They are a medicine that I don't mind giving my praise."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Nelson had. Foster-Milburn Co., Prop., Buffalo, N. Y. Advt.

H. M. Batte, the merchant tailor, of Fulton, left his place of business on Lake street last Friday and mysteriously disappeared. Financial embarrassment is said to have been the cause. —Fulton Leader.

NONE OF US can tell what the condition of this country will be when the war is over, but some of our older readers will remember that in 1865 we had a public debt of more than a billion dollars and everybody thought the United States was facing bankruptcy. The insurance companies represented by Henry & Henry have paid that much in losses since the Civil War and are yet among the strongest companies we have, and the rates charged by them are no more than you will pay others.

DUTY TO PREVENT ANY IMPOSITION ON PUBLIC.

In response to the Senate resolution requesting investigation into the possible connection of combinations in restraint of trade with the increase in the cost of foodstuffs and coal, Attorney General M. M. Logan has called a conference of commonwealth's and county attorneys to be held at Frankfort, May 11.

"The purpose of the meeting," said Gen. Logan, "is to discuss probable violations of the 1916 anti-trust law. I do not know that dealers in the necessities of life are violating this law, but the Kentucky Senate adopted a resolution calling upon the attorney general and commonwealth's and county attorneys to make an investigation along this line. I have had complaints from different parts of the State that certain dealers are violating the law."

"At a time like this the temptation to increase prices above what is reasonable is great. It is the patriotic duty of every officer to prevent any imposition on the public. The anti-trust law is amply sufficient to punish any person or corporation who may enter into any agreement to fix prices, and if prices are fixed by the concerted action of two or more persons or concerns the law has been violated."

THE NEW DOLLAR BILLS.

The new one-dollar bills recently put into circulation by the government to take the place of new silver dollars have made their appearance. The bill is a beautiful one and resembles a five-dollar bill and is very much prettier than the old one. Mrs. Dora Webb Jenne, wife of the late Geo. W. Jenne, of Fulton, died Friday, at the infirmary at Bolivar, Tenn., following a lingering illness of a complication of diseases.

The understanding is that the mail order liquor houses in such cities as Hopkinsville and Paducah will soon begin to "pack their duds" preparatory to moving to more congenial quarters, but they are whimpering like a cur out in the cold, as they wag the tail of diathema, ask, "Where are we wanted?" These answers are, "There is but one place, and that is too hot for comfort." Cincinnati might act as a temporary abiding place.—Ex.

Why Suffer?

Mrs. J. A. Cox, of Alderson, W. Va., writes: "My daughter . . . suffered terribly. She could not turn in bed . . . the doctors gave her up, and we brought her home to die. She had suffered so much at . . . time. Having heard of Cardui, we got it for her."

CARDUI

The Woman's Tonic

"In a few days, she began to improve," Mrs. Cox continues, "and had no trouble at . . . Cardui cured her, and we sing its praises everywhere. We receive many thousands of similar letters every year, telling of the good Cardui has done for women who suffer from complaints so common to their sex. It should do you good, too. Try Cardui."

WHAT IS LAX-FOS

LAX-FOS IS AN IMPROVED CASCARA

A DIGESTIVE LAXATIVE

CATHARTIC AND LIVER TONIC

LAX-FOS is not a Secret or Patent Medicine but is composed of the following old-fashioned roots and herbs:

CASCARA BARK

BLUE FLAG ROOT

RHUBARB ROOT

BLACK ROOT

MAY APPLE ROOT

SENNIA LEAVES

AND PEPSIN

In LAX-FOS the Cascara is improved by the addition of these digestive ingredients making it better than ordinary Cascara, and thus the combination acts not only as a stimulating laxative and cathartic but also as a digestive and liver tonic. Syrup laxatives are weak, but LAX-FOS combines strength with palatable, aromatic taste and does not gripe or distract the stomach. One bottle will prove LAX-FOS is invaluable for Constipation, Indigestion or Torpid Liver. Price 50c.

REAL EAST INDIAN VILLAGE TO BE SHOWN.

An Indian village, authentic in every particular, from the thatched huts to the foliage in a jungle scene, is the part of the impressive scenery used in the Vitagraph Blue Ribbon Feature, "Thou Art the Man." Sidney Rankin Drew, who produced the picture, spent four weeks, with the aid of several natives, arranging the exterior sets, so that no possible criticism could say that the scenes lacked truth or realism.

It was in the thatched huts that Drew's assistants found the most difficulty. It was like learning a new trade to roof over these buildings with grass and straw.

Twice the work was delayed by the careless use of cigarettes, when fires utterly destroyed the sets. Drew was obliged to enforce the strictest fire laws before he obtained realism that satisfied him. Interior views presented similar difficulties and only the advice of a low caste Indian made the set possible.

In addition to directing this scene, young Drew played the principal role, that of the young Englishman whose wife is sought by his superior officer, and who is sent to a fever-stricken district that he may be put definitely out of the way. Besides portraying this difficult emotional role, Drew had to watch the lighting effects and film footage and it can easily be said that in making this his best effort he has produced for the Vitagraph Company a film masterpiece. He was swayed in no small measure by the fact that "Thou Art the Man," was the deathbed work of his mother, who wrote under the name of George Cameron, and the loving son has raised a splendid monument to her memory. At the Crystal Thater one day—Tuesday—May 8th.

SOME AWFUL TRAGEDIES.

There are some tragedies in life that are so cruel and terrible as to be unspeakable. A woman, a wife and a mother, living in this county, this week left their home, her husband, one of the nobles of men, and her children for a vile, contemptible paramour, stating that she loved neither her children nor her husband. This is not a woman but a devil and a monster. The friends of this sorrow stricken man are standing to him like heroes.—Union City News-Banner.
